Project Title: Youth 4 Labour Market in Elbasan, Cërrik, Librazhd and Prrerjas

The overall objective is to foster the inclusive and tailored employment opportunities of groups at risk, women and men, boys, and girls, in line with the needs of the regional labour market.

The project aims to enhance the employability and social inclusion of 160 vulnerable young jobseekers (NEETs) across four municipalities of Elbasan, Librazhd, Prrerjas and Cërrik. Through formal and non-formal education, vocational training, and tailored social services, participants will develop the skills and confidence needed for labor market integration. A program focusing on public works in the community will be tailored, enabling young people to provide care for the lonely elderly. The goal is to establish a replicable, integrated service model that empowers young people, particularly those facing socio-economic challenges, to enter the labour market and have sustainable employment.
