Project Title: Skill Up – pathways to success

The overall objective is to enhance the partnership of NAES with the targeted municipalities in Elbasan region and strengthen inclusive and active employment and skills models, through the delivery of qualitative, flexible, targeted trainings in basic skills (literacy, numeracy, and digital) and life skill.

The project aims to enhance the employability of 207 low-skilled and vulnerable jobseekers in selected municipalities by providing basic skills (literacy, numeracy, digital) and life skills training programs. The project integrates the life skills program to strengthen participants' personal and professional development. The project will provide mentoring, employment referrals, and integrated case management services to ensure long-term employability. By bringing together and enhancing the dialogue between NAES and social services in municipalities it will be possible to address multiple needs of beneficiaries.
